

Virtual Reception

Complete Straight-to-Room Experience

Virdee technology provides a secure, contactless experience that accompanies guests throughout their stay.

- Starting with pre-check-in messages, guests have easy access to upsells and amenities, **increasing revenue**.
- Self-service identity verification, payment collection, and mobile and physical key issuance automate workflows and **reduce stress on staff**.
- Remote Assistance enables a front-desk-on-demand, letting your staff **support guests from anywhere**.
- Virdee software integrates with any PMS, lock, and payment system for **seamless rollouts**.
- Virdee Software Platform integrates features into **your existing app**.

Improve Staff Efficiency

Automate everyday tasks and connect with guests from anywhere with Remote Assistance

Eliminate Long Lines

Self-service check-in via app, web, and kiosk enables bypassing of the front desk

Increase Guest Loyalty

Capture missing guest data and grow loyalty and marketing signups with prompts during check-in

Grow Profitability

Offsite vendors and fingertip access to amenities and upsells unlock new revenue streams

Decrease Complexity

Integrate with any PMS, lock and payment system and control everything from one dashboard

Reduce Chargebacks & Fraud

Secure identity verification ensures certainty of who is on property and provides accountability

Virdee Solutions integrate with any hardware and software provider including
